

It has come to the notice of management that since our registration fee for empanelling Business Associates is refundable, the business traders/suppliers simply get the registration done and do not bring any business for NCCF for years together. They flaunt the associations/platform with Govt. organizations like NCCF on their visiting cards, but do not make any effort to bring business to NCCF. They only concentrate on their private business. To remove such avoidable fraud and to activate functioning of Business Associates, the following are ordered with immediate effect :

- a) Starting from today in all future cases of registration, the registration fee will be non-refundable.

- b) All Business Associates who are registered with NCCF branches and have not brought any business for the last 2 years, in all such cases their registration fee stands forfeited.
